

## **Highline Data Releases First Quarter Data for 2009 in *Insurance Analyst PRO***

CAMBRIDGE, Mass., May 18- Highline Data released full financial data for the First Quarter of 2009 today.

This 2009 Q1 data release was made possible by Highline Data's unprecedented 6-hour delivery of financial data from the quarterly statutory financial statements of all property and casualty, all life, and all health insurers that filed to the NAIC by the May 15 deadline and have prior statutory data within *Insurance Analyst PRO*. Statements filed by May 15 were released by the NAIC on May 18.

Highline Data was once again the first company to deliver quarterly insurance industry statutory financial data to the market with this year's expedited delivery of 2009 Q1 data.

Additional updates will be made over the next few days to the other online products, such as *Insurance Analyst*.

### **About Summit Business Media**

Highline Data is a division of Summit Business Media. Summit Business Media strives to provide the highest-quality information for those in the insurance, financial, and professional services markets. Our information includes industry news, analysis, senior management perspectives, editorial opinion, market and consumer trends, regulatory and compliance, financial performance data, and how-to. Information is delivered via weekly, biweekly, and monthly print magazines; via electronic newsletters, daily blogs, and up-to-the-minute news websites; through live events, including trade shows, conferences, and classroom and web seminars; via book and electronic reference materials; and via financial, employee benefits, and marketing databases. Summit Business Media employs more than 400 people in 17 offices throughout the United States.
